Contract Number: MIS0007427

SECTION 2: HAZARD(S) IDENTIFICATION

GHS-US Classification

Non-Flammable liquid. This product is classified as an irritant according to theclassification criteria of NOHSC and ADG Code (Australia).

Hazard Pictograms

Signal Word
Danger

Hazard Statements
H225 - Serious Irritant! Do not leave in contact with skin for longer than 2-3 minutes.

Rinse repeatedly thoroughly after

H319 - Causes serious eye irritation if directly placed in eyes.

Precautionary Statements
P210 - Keep away from heat, open flames, sparks. - No smoking.
P243 - Take precautionary measures.

Precautionary Statements Continued

Ingestion:	If product is swallowed, it may cause nausea, vomiting and/or diarrhea and central nervous systemdepression. Do not induce vomiting. Drink plenty of milk or water immediately. Never give water or milk to unconscious person. If persist, contact the nearest Poison Control Center or Local Emergency number.
Eyes/Skin:	The liquid may produce eye discomfort and is capable of causing temporary impairment of vision and/or transient eye inflammation, ulceration. The vapor is discomforting to the eye. Splashes may cause severe eye irritation, possible corneal burns and eye damage. Moderately irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering. Maybe irritating to skin, especially after prolonged contact. The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) upon prolonged or repeated exposure.
Inhalation:	Vapors of this product may be moderately irritating to the nose, throat and other tissues of the respiratory system. Symptoms of overexposure can include coughing, wheezing, nasal congestion, and difficulty breathing. Inhalation of concentrated vapors can cause central nervous system depression (e.g., drowsiness, dizziness, headaches, nausea). Odor may give some warning of exposure, but odor fatigue may occur.
Symptoms of overexposure:	Symptoms of skin overexposure may include redness, itching, and irritation of affected areas. Overexposure in eyes may cause redness, itching and watering. The product can cause allergic skin reactions (e.g., rashes, welts,dermatitis) upon prolonged or repeated exposure.
Acute Health Effects:	Moderate irritation to eyes and skin near affected areas. Additionally, high concentrations of vapors can cause drowsiness, dizziness, headaches and nausea.
Chronic Health Effects:	The material may accentuate any pre-existing dermatitis condition.
Target Organs	Eyes, skin respiratory system
Other Hazards	No additional information available
Unknown Acute Toxicity	No data available

SECTION 4: FIRST-AID MEASURES

First-Aid Measures

First-Aid Measures After Inhalation: Pre-existing dermatitis, other skin conditions, and disorders of the target organs (eyes, skin, respiratory system).

First-Aid Measures After Skin Contact: If irritation occurs & product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with plenty of soap and water. Citrus based products will reduce irritation on skin. Remove all contaminated clothing, including footwear and wash thoroughly before reuse. If irritation, redness or swelling persists, consult a physician immediately.

First-Aid Measures After Eye Contact: If product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Open and close eyelid(s) to ensure thorough irrigation. Seek immediate medical attention. If problem persists, seek immediate medical attention.

First Aid Measures After Ingestion: Remove the victim to fresh air at once. If breathing stops, perform artificial respiration. Seek immediate medical attention.

Seek medical assistance for further treatment, observation and support if necessary.

SECTION 5: FIRE-FIGHTING MEASURES

Special Hazards Arising from the Substance or Mixture

Fire Hazard: This product is not a flammable Liquid When involved in a fire, this product will not ignite and decompose to form toxic gas- es (e.g., CO, CO2, NOx)..

Advice for Firefighters

Firefighting Instructions: First responders should wear eye protection. Structural fire fighters must wear full protective equipment and MSHA/NIOSH-approved self-contained breathing apparatus. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas. If necessary, rinse contaminated equipment with soapy water before returning to service.

Version 5.0

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For Non-Emergency Personnel

For large spills (e.g., <1 gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reusing.

For Emergency Responders

For spills ³ 1 gallon, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth).

Environmental Precautions

Use Sand and Dirt for recovery and cleanup.

Methods and Material for Containment and Cleaning Up

Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal.

Reference to Other Sections

Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

SECTION 7: HANDLING AND STORAGE

Work & Hygiene Practices:

Avoid prolonged contact with this material. Avoid breathing the vapors generated by this product. Use in a well-ventilated location (e.g., local exhaust ventilation, fans). Wash exposed skin thoroughly with plenty of soap & water after using this product. If necessary, use a moisturizer after washing. Do not eat, drink, or smoke while handling this product.
Storage Conditions: Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Keep away from incompatible materials listed in Section 10. Do not store inside damaged or unmarked containers or storage devices. Keep containers securely closed when not in use. Open slowly on a level, stable surface. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care. As a precaution against exposure to the eyes, nose, throat and face, this product shouldnot be stored higher than waist level.

Keep away from children at all times!

Incompatible Materials: N/A

Storage Area: Keep in cool dry area.

Special Rules on Packaging: Any special rules for packaging. Protective Eye wear and Gloves

Specific End Use(s)

Hands and Feet

With caution and acknowledgement of product warnings

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Controls

Appropriate Engineering Controls	Use with adequate ventilation (e.g., local exhaust ventilation, fans). Ensure appropriate decontamination equipment is available. (e.g., sink, safety shower, eye-wash station) .
Hand Protection	Protective Gloves upon application. However, it will cause skin irritation insome sensitive individuals. When handling large quantities (e.g., ³ 1 gallon), wear rubber or impervious plastic gloves
Eye Protection	Wear protective eyewear (e.g., safety glasses with side-shield) at all times when handling this product. Always use protective eyewear when cleaning spills or leaks. Contact lenses pose a special hazard; soft lenses may absorb and concentrate irritants.
Skin and Body Protection	Protective apron required when handling large quantities. When handling large quantities (e.g., ³ 1 gallon), eye wash station sand deluge showers should be available. Upon completion of work activities involving large quantities of this product, wash any exposed areas thoroughly with soap and water.
Respiratory Protection	No special respiratory protection is required under typical circumstances of use or handling. In instances where sprays of this product are generated, and respiratory protection is needed, use only protection authorized by 29 CFR §1910.134, applicable U.S. State regulations, or the Canadian CAS Standard Z94.4-93and applicable standards of Canadian Provinces, EC member States, or Australia.
Thermal Hazard Protection	Keep away from open flame-non flammable

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on Basic Physical and Chemical Properties

Appearance	Viscous Gel
Color	Various
Odor	Various
Odor Threshold	NE
pH	≥ 12.0
Relative Evaporation Rate (butyl acetate=1)	ND
Melting Point	ND
Freezing Point	ND
Boiling Point	171-640 °F
Flash Point	N/A
Auto-Ignition Temperature	ND
Decomposition Temperature	ND
Flammability (Solid, Gas)	ND
Vapor Pressure	ND
Relative Vapor Density at 20◦C	ND
Density	1.100-1.210
Solubility	Soluble
Log Pow	ND
Log Kow	ND
Viscosity, Dynamic	≥ 10,000 cps
Explosive Properties	ND
Oxidizing Properties	ND
Explosive Limits	ND

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Relatively stable under ambient conditions when stored properly.
Conditions to Avoid: Exposure or contact to extreme temperatures, incompatible chemicals, strong light sources.
Hazardous Decomposition Products: None

SECTION 11: TOXICOLOGICAL INFORMATION

Information on Toxicological Effects

Reproductive Toxicity: This Product is not reported to cause reproductive effects in humans.

Toxicity Data:
This product has NOT been tested on animals to obtain toxicological data. There is toxicology data for the components of the product,which are found in scientific literature. This data has not been presented in this document.

Acute Toxicity:
See Section 2

Chronic Toxicity:
See Section 2

Suspected Carcinogen:
No

Reproductive Toxicity:
This product is not reported to cause reproductive toxicity in humans.

Mutagenicity:
This product is not reported to produce mutagenic effects in humans.

Embryotoxicity:
This product is not reported to produce embryotoxic effects in humans.

Teratogenicity:
This product is not reported to cause teratogenic effects in humans.

Reproductive Toxicity:
This product is not reported to cause reproductive effects in humans.

Irritancy of Product:
See Section 2

Biological Exposure Indices:
NE

SECTION 12: ECOLOGICAL INFORMATION

Biodegradability:

Environmental Stability:
The components of this product will slowly degrade over time into a variety of organic compounds. Specific environmental data available for the components of this product are available but are not presented in this MSDS.
Effects on Plants & Animals:
There is no specific data available for this product.
Effects on Aquatic Life:
There is no specific data available for this product. Releases of large volumes may be harmful or fatal to overexposed aquatic life. Aquatic toxicity data for components of this product are available.

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose in accordance with all federal, provincial, and/or local regulations.

Waste Disposal:

Dispose in accordance with local, state and Federal hazardous waste laws.

Special Considerations:

U.S. EPA Characteristic Waste:

SECTION 14: TRANSPORT INFORMATION

The basic description (proper shipping name, hazard class & division, ID Number, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR
49 CFR

SECTION 15: REGULATORY INFORMATION

SARA Reporting Requirements:
NA
SARA Threshold Planning Quantity:
NA
TSCA Inventory Status:
All components of this product are listed in the TSCA Inventory or are exempt.
CERCLA Reportable Quantity (RQ):

SECTION 16: OTHER INFORMATION

Other Federal Requirements:
This product complies with the appropriate sections of the Food and Drug Administration's 21 CFR subchapter G (Cosmetics).

Other Canadian Regulations
This product has been classified according to the hazard criteria of the CPR and the SDS contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List. Irritant.

State Regulatory Information:
Ingredients in this mixture on found on the following state criteria lists:

California OSHA Hazardous Substances List	Sodium Hydroxide
Delaware Air Quality Management List	Sodium Hydroxide
Massachusetts Hazardous Substances List	Sodium Hydroxide
Minnesota Hazardous Substances List	Sodium Hydroxide
New York List of Hazardous Substances	Sodium Hydroxide
Pennsylvania Hazardous Substances List	Sodium Hydroxide
Washington Permissible Exposure Limits for Air Contaminants	Sodium Hydroxide
Wisconsin Hazardous Substances List	Sodium Hydroxide

67/548/EEC (European Union) Requirements
The primary component of this product is listed in Annex I of EU Directive 67/548/EEC:
Sodium Hydroxide, Irritating to eyes. Repeated exposure may cause skin dryness or cracking.
